The meeting with the tour operators discussed the creation of some sort of standard for them – aka a certification which would require proof of the various ids (PUC, business license, etc.) Also in regards to the headset motion which Councilman LaBonge submitted in June/July, it was heard in Public Safety Committee last week and the outcome was a request for the City Attorney to have a draft ordinance written in 30 days which would require all open air vehicles to have headsets to reduce the problem of noise amplification.

Nicole Carsell from Mike Feuer's office gave an update on the issues Mike has initiated in the legislature. He urges congressional passage of the Los Angeles Helicopter Noise Relief Act in a letter to Senators Diane Feinstein and Barbara Boxer for the measure authored by Rep. Howard Berman. Nicole also announced a public forum on healthcare reform at the state and local level at Park La Brea Activities Center on Monday October 24th.

Representatives of the Beachwood Canyon Neighborhood Assn. spoke about a petition being composed for Special Federal Aviation Regulation (SFAR) for the Mount Lee area in regards to non-emergency helicopters and other aircraft.
